About The PERT Consortium™

The PERT Consortium™ is honored to serve as the premier organization dedicated to establishing, optimizing, and expanding multidisciplinary Pulmonary Embolism Response Teams (PERT), and their quality care for pulmonary embolism (PE) patients.

At the heart of PERT's mission are the multidisciplinary specialists, and patients, that strive for better outcomes as part of a collaborative, coordinated approach to PE diagnosis, treatment and management.

The committed clinicians, scientists, administrators, and industry professionals that play a role in this care form a community, The PERT Consortium™. Once a year this community convenes to share knowledge, conduct business, enjoy each other's company, and pursue a bright future for the care of PE patients.

The PERT Consortium™ is calling all members of the PE community to join us, September 17-20, 2025, at the magnificent Gaylord Pacific Resort in San Diego, CA.
